

Elementary Academic Catalog

Early Childhood

Pre K 3:

Class meets two mornings a week from 8:30-11:30 am. Our Pre K 3 program provides a safe, nurturing, fun environment where your child can be introduced into an academic setting. Students are introduced to early childhood readiness skills. Small group activities will be used to help develop social skills such as friendship, cooperation, sharing, and fine motor skills such as cutting and pasting. Large group activities will be used to help develop large motor skills. Learning centers will be used to help children develop skills at a pace at which they are developmentally ready. Numbers, letters, colors, shapes, handwriting, and explorations of science topics will be introduced at these centers. Bible truths that emphasize God's love will be taught during Bible time. Students will learn weekly memory verses to reinforce these important truths. PK3 students will also participate in music class and PE. PK3 students will participate in both the Christmas musical and the Spring Concert.

Pre K 4:

Class meets on Monday, Wednesday, and Friday mornings 8:30-11:30 am. Our Pre K 4 program readies children to be successful in a classroom setting. Students will learn social skills such as following directions and how to play and share with others in a safe and nurturing environment. Academic skills such as letter recognition, letter sounds, handwriting, scissor skills, number recognition, counting, are taught through fun and engaging games, songs, poems, and stories. Bible truths are taught and accompanied by weekly Bible lessons. In addition to classroom time, students will participate in music and physical education. Pre K 4 students will participate in the Christmas program and the Spring Concert.

Kindergarten Prep:

Class meets on Monday through Friday afternoons 12:30-3:20 pm. Kindergarten Prep is specially designed for those students who do not yet meet Kindergarten readiness due to age or overall readiness. In Kindergarten Prep we focus on refining the academic skills either learned at home or in preschool to better prepare for the academic rigor of Kindergarten. Students benefit from a smaller atmosphere where teachers are able to focus on each student and their needs. We follow the same academic guidelines in academics as our elementary in the areas of Bible, phonics, handwriting, reading, math, and writing. Science and social studies are integrated where appropriate in the curriculum. In addition to classroom time, students will participate in library, music, and physical education. Kindergarten Prep students will participate in the Christmas program and the spring concert.

Elementary

Kindergarten:

Bible:

Old and New Testament Stories
Weekly Bible memorization verse
Weekly Chapel on Wednesday Mornings

Language Arts/Reading:

Reading Workshop- Whole Group/Small group
Writing Workshop
